Understanding a Health Savings Account

What is a health savings account?

Otherwise known as an HSA, a health savings account can be funded with your tax-exempt dollars, by your employer, or both. Dollars from the account can help pay for eligible medical expenses not covered by an insurance plan, including the deductible, coinsurance, and even health insurance premiums, in some cases.

Who is eligible for an HSA?

Anyone who is:

- Covered by a high-deductible health plan (HDHP);
- Not covered under another medical plan that is not an HDHP;
- Not entitled to (eligible for AND enrolled in) Medicare benefits; or
- Not eligible to be claimed on another person’s tax return.

What is a high-deductible health plan (HDHP)?

A high-deductible health plan is a plan with a minimum annual deductible and a maximum out-of-pocket limit as listed below. These minimums and maximums are determined annually by the Internal Revenue Service (IRS) and are subject to change.

<table>

<td>$12,700</td>
</tr>
</tbody>
</table>

(2014 limits)

How Does an HSA Work?

Part 1: Qualifying High-Deductible Health Insurance Plan

Intended to cover serious illness or injury after the deductible has been met.

Part 2: Health Savings Account

Pays for out-of-pocket expenses incurred before the deductible is met.
What are the steps in an HSA?

1. Employee and/or employer funds HSA account.
2. Employee seeks medical services.
3. Medical services are paid by HDHP, subject to deductible and coinsurance.
4. Employee may seek reimbursement from HSA account for amounts paid toward deductible and coinsurance.
5. Deductible and out-of-pocket maximum fulfilled.
6. Employee may be covered for all remaining eligible expenses.*

Preventive care is covered at 100% with no costs out of your pocket when you are covered by ANZA, Incorporated Health Plan.

*Subject to plan design; check Summary Plan Description.

When do I use my HSA?

After visiting a physician, facility or pharmacy, your medical claim will be submitted to your HDHP for payment. Your HSA dollars can be used to pay your out-of-pocket expenses (deductibles and coinsurance) billed by the physician, facility or pharmacy, or you can choose to save your HSA dollars for a future medical expense.

You may also be able to use an HSA debit card at the point of purchase for certain payments, such as copayments or prescriptions, if your plan allows it.

What is a deductible?

It is a set dollar amount determined by your plan that you must pay out-of-pocket or from your HSA account before insurance coverage for medical expenses can begin.

How much can I contribute to an HSA?

As noted by federal law, the annual contribution limits are:

- $3,300 for individual coverage and $6,550 for family coverage in 2014.

Individuals age 55 or older may be eligible to make a catch-up contribution of $1,000.

What is the difference between an HSA and Flexible Spending Account (FSA)?

- An HSA can roll over unused funds from year to year and is portable if the employee leaves the company.
- An FSA cannot roll over unused funds from year to year and is not portable.

Can I contribute to both an HSA and an FSA in the same year?

Yes, a “limited FSA” is permissible. A limited FSA only allows reimbursement of expenses that are not eligible for payment under the HDHP or HSA. For example, an employer may establish a limited FSA to allow employees to contribute pre-tax dollars to an account which only reimburses expenses for dental services.

ANZA, Incorporated will not be offering a “limited purpose FSA” to their employees.

What if I enroll in an HSA in the middle of the year?

If you enroll in an HSA mid-year, you are allowed to make a full year’s contribution, provided that you remain covered by the HSA for at least the 12-month period following that year.
Why should I elect an HSA?

1. Cost Savings
   - Tax benefits
     - HSA contributions are excluded from federal income tax
     - Interest earnings are tax-deferred
     - Withdrawals for eligible expenses are exempt from federal income tax
   - Reduction in medical plan contribution
   - Unused money is held in an interest-bearing savings or investment account

2. Long-Term Financial Benefits
   - Save for future medical expenses
   - Funds roll over from year to year
   - Account is portable—you take it with you even if you leave the company.

3. Choice
   - You control and manage your health care expenses.
   - You choose when to use your HSA dollars to pay your health care expenses.
   - You choose when to save your HSA dollars and pay health care expenses out-of-pocket.
